

INFIRAY OUTDOOR  
**RICO MICRO V2**

**MULTIFUNCTION THERMAL OPTIC**

In its second generation, our most popular family of thermal optics has been updated to provide users with powerful enhancements while retaining the versatility that our customers love; use it as a handheld scanner, helmet-mounted monocular, weapon sight, or thermal clip-on. New models feature a machined magnesium alloy housing to reduce weight. An added USB-C port now allows for simplified file transfer and the ability to power the MICRO from an external battery pack. The internal video recorder now includes crisp audio and 64 GB of internal storage. An improved 1440x1080 AMOLED display and is paired with a new eyepiece that offers more comfortable viewing and clip-on compatibility for optics up to up to 6x magnification. The MICRO V2 also uses InfiRay's latest 12  $\mu\text{m}$  sensor, an improved NETD rating of  $\leq 18\text{mK}$ , and a manual-focus f/1.0 objective lens to create an image that is unlike anything in its class.

**NEW LARGER EYEPIECE**

We kept the same form factor and versatility that our customers love, while added some upgrades to the V2 models. The RL25 V2 can now be used as a thermal clip-on unit (previously only available in the RH25). Both models now include a larger display and eyepiece, providing over 90% more pixels on an 80% larger viewable area. This provides a more comfortable viewing experience and improved clip-on compatibility with day optics up to 6× magnification.
