FUSE/02

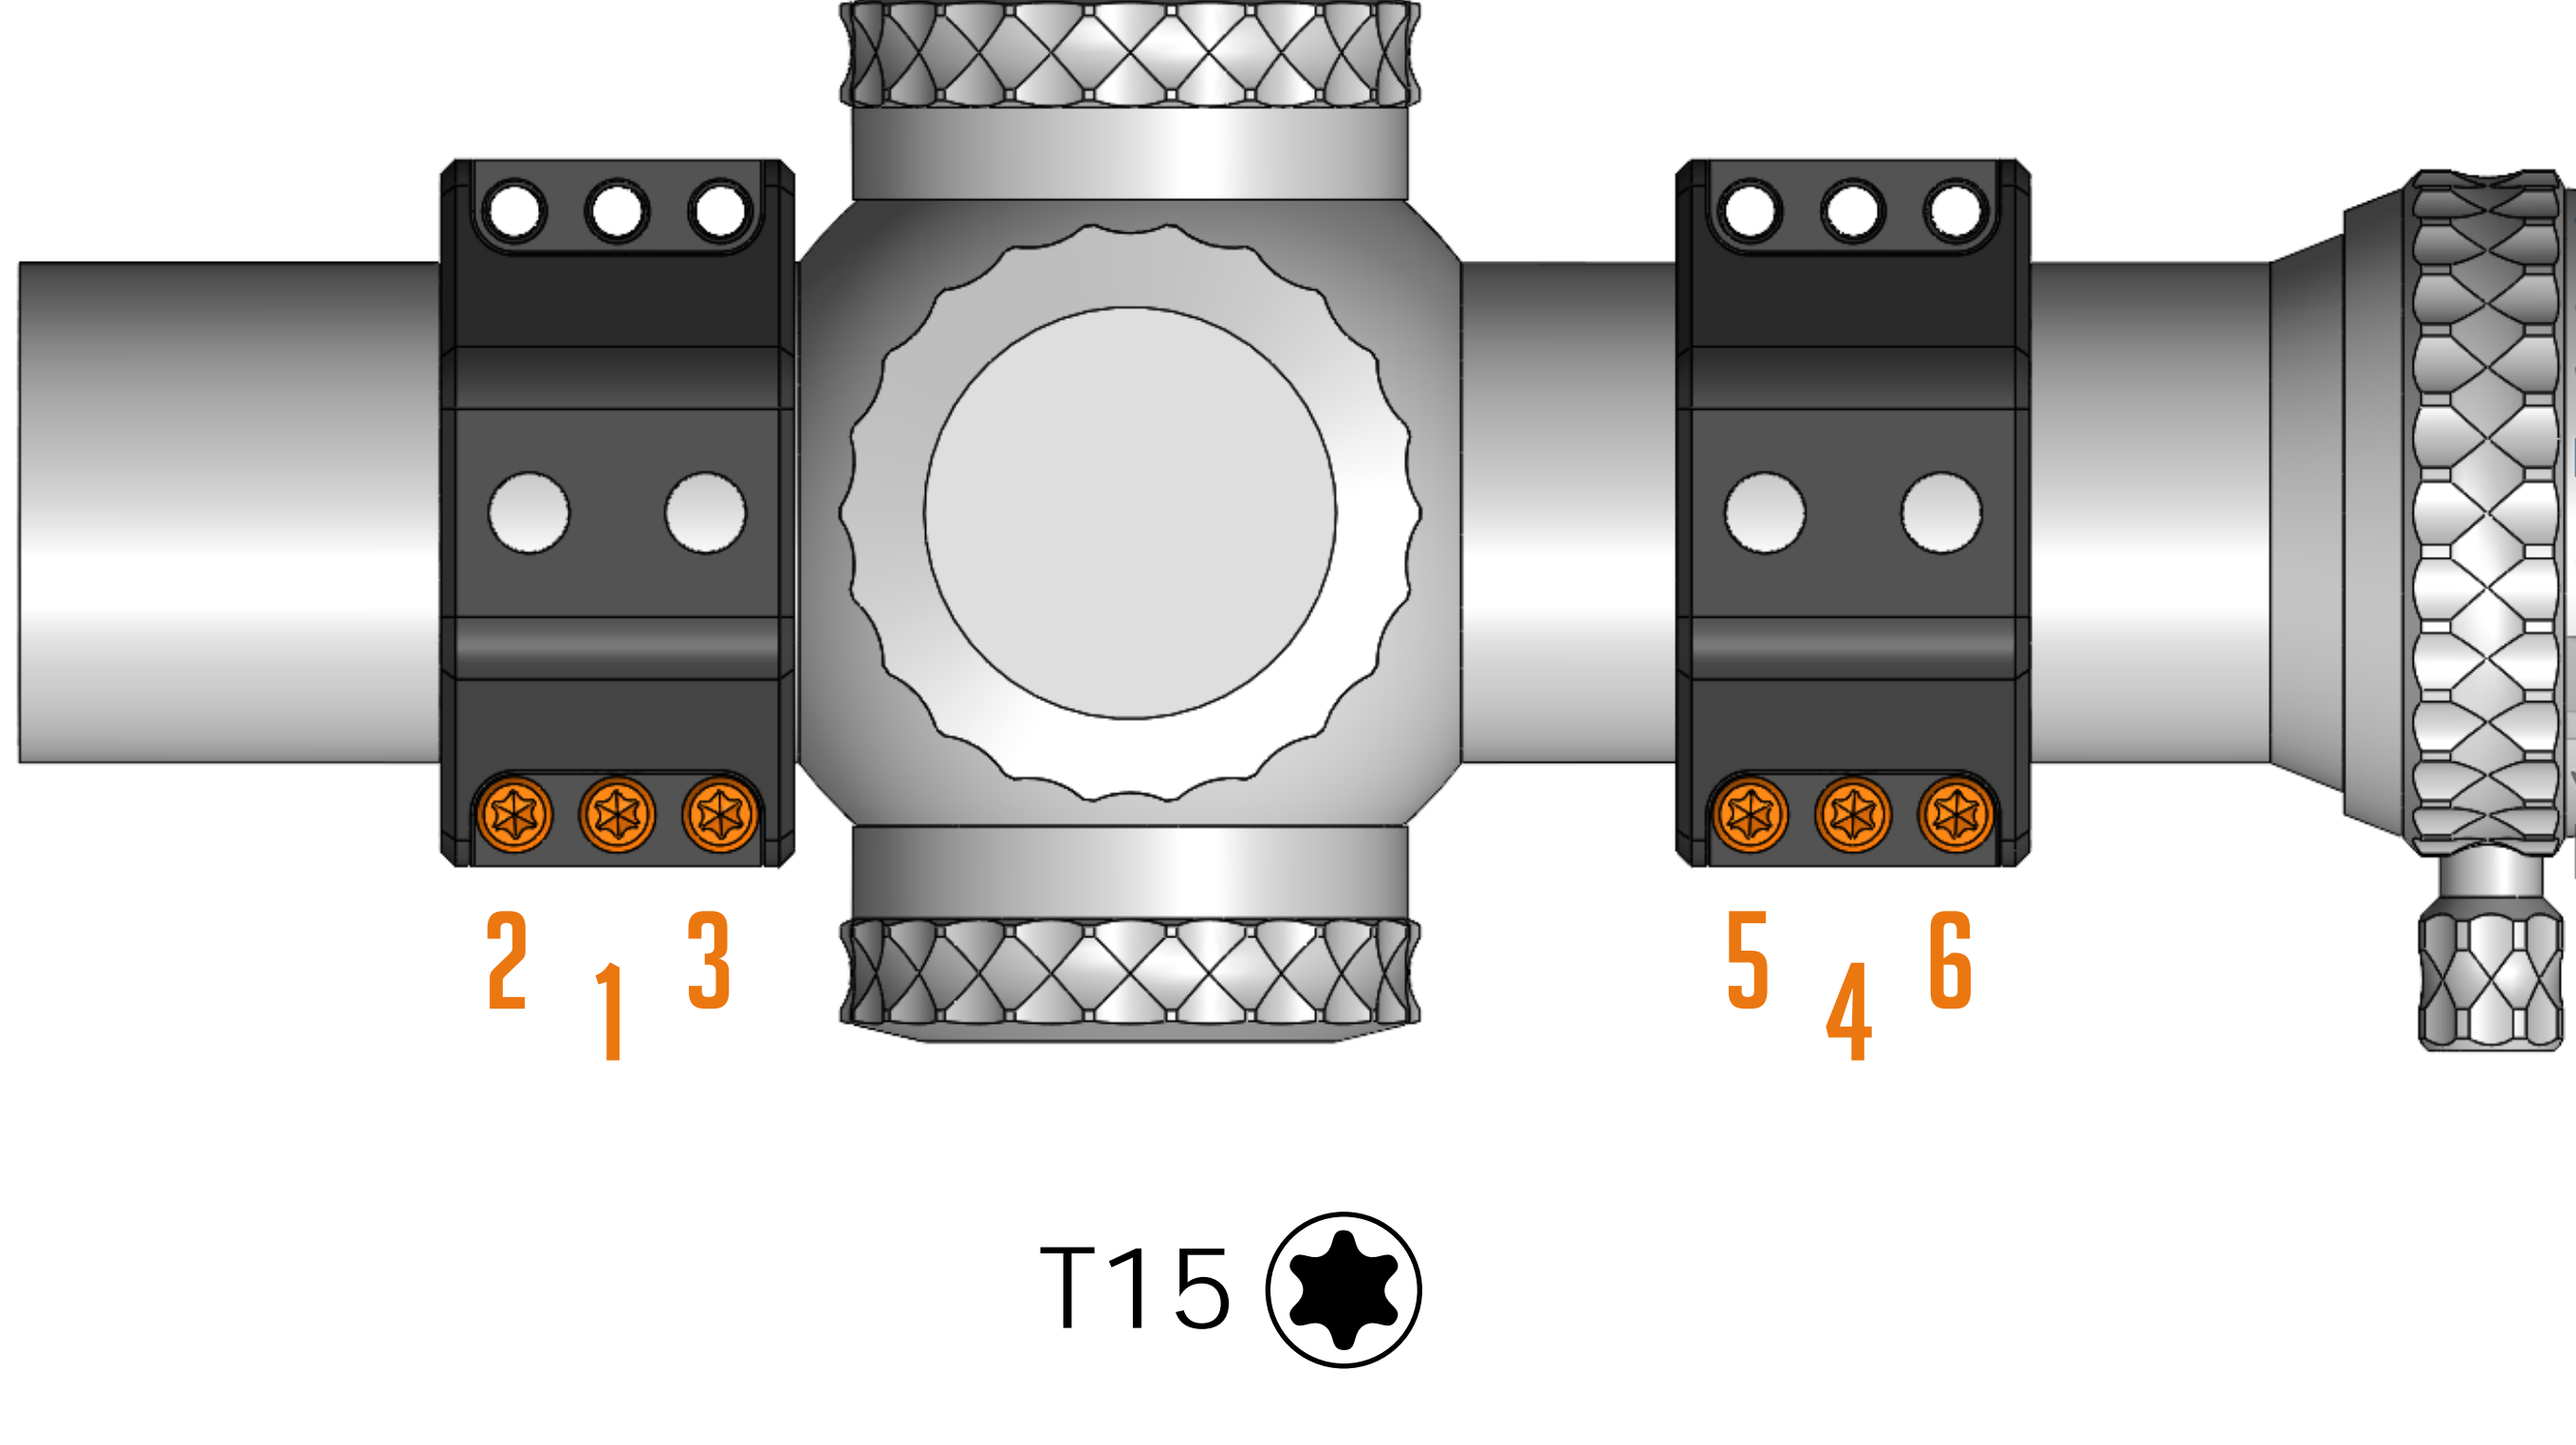

O W N E R ' S M A N U A L

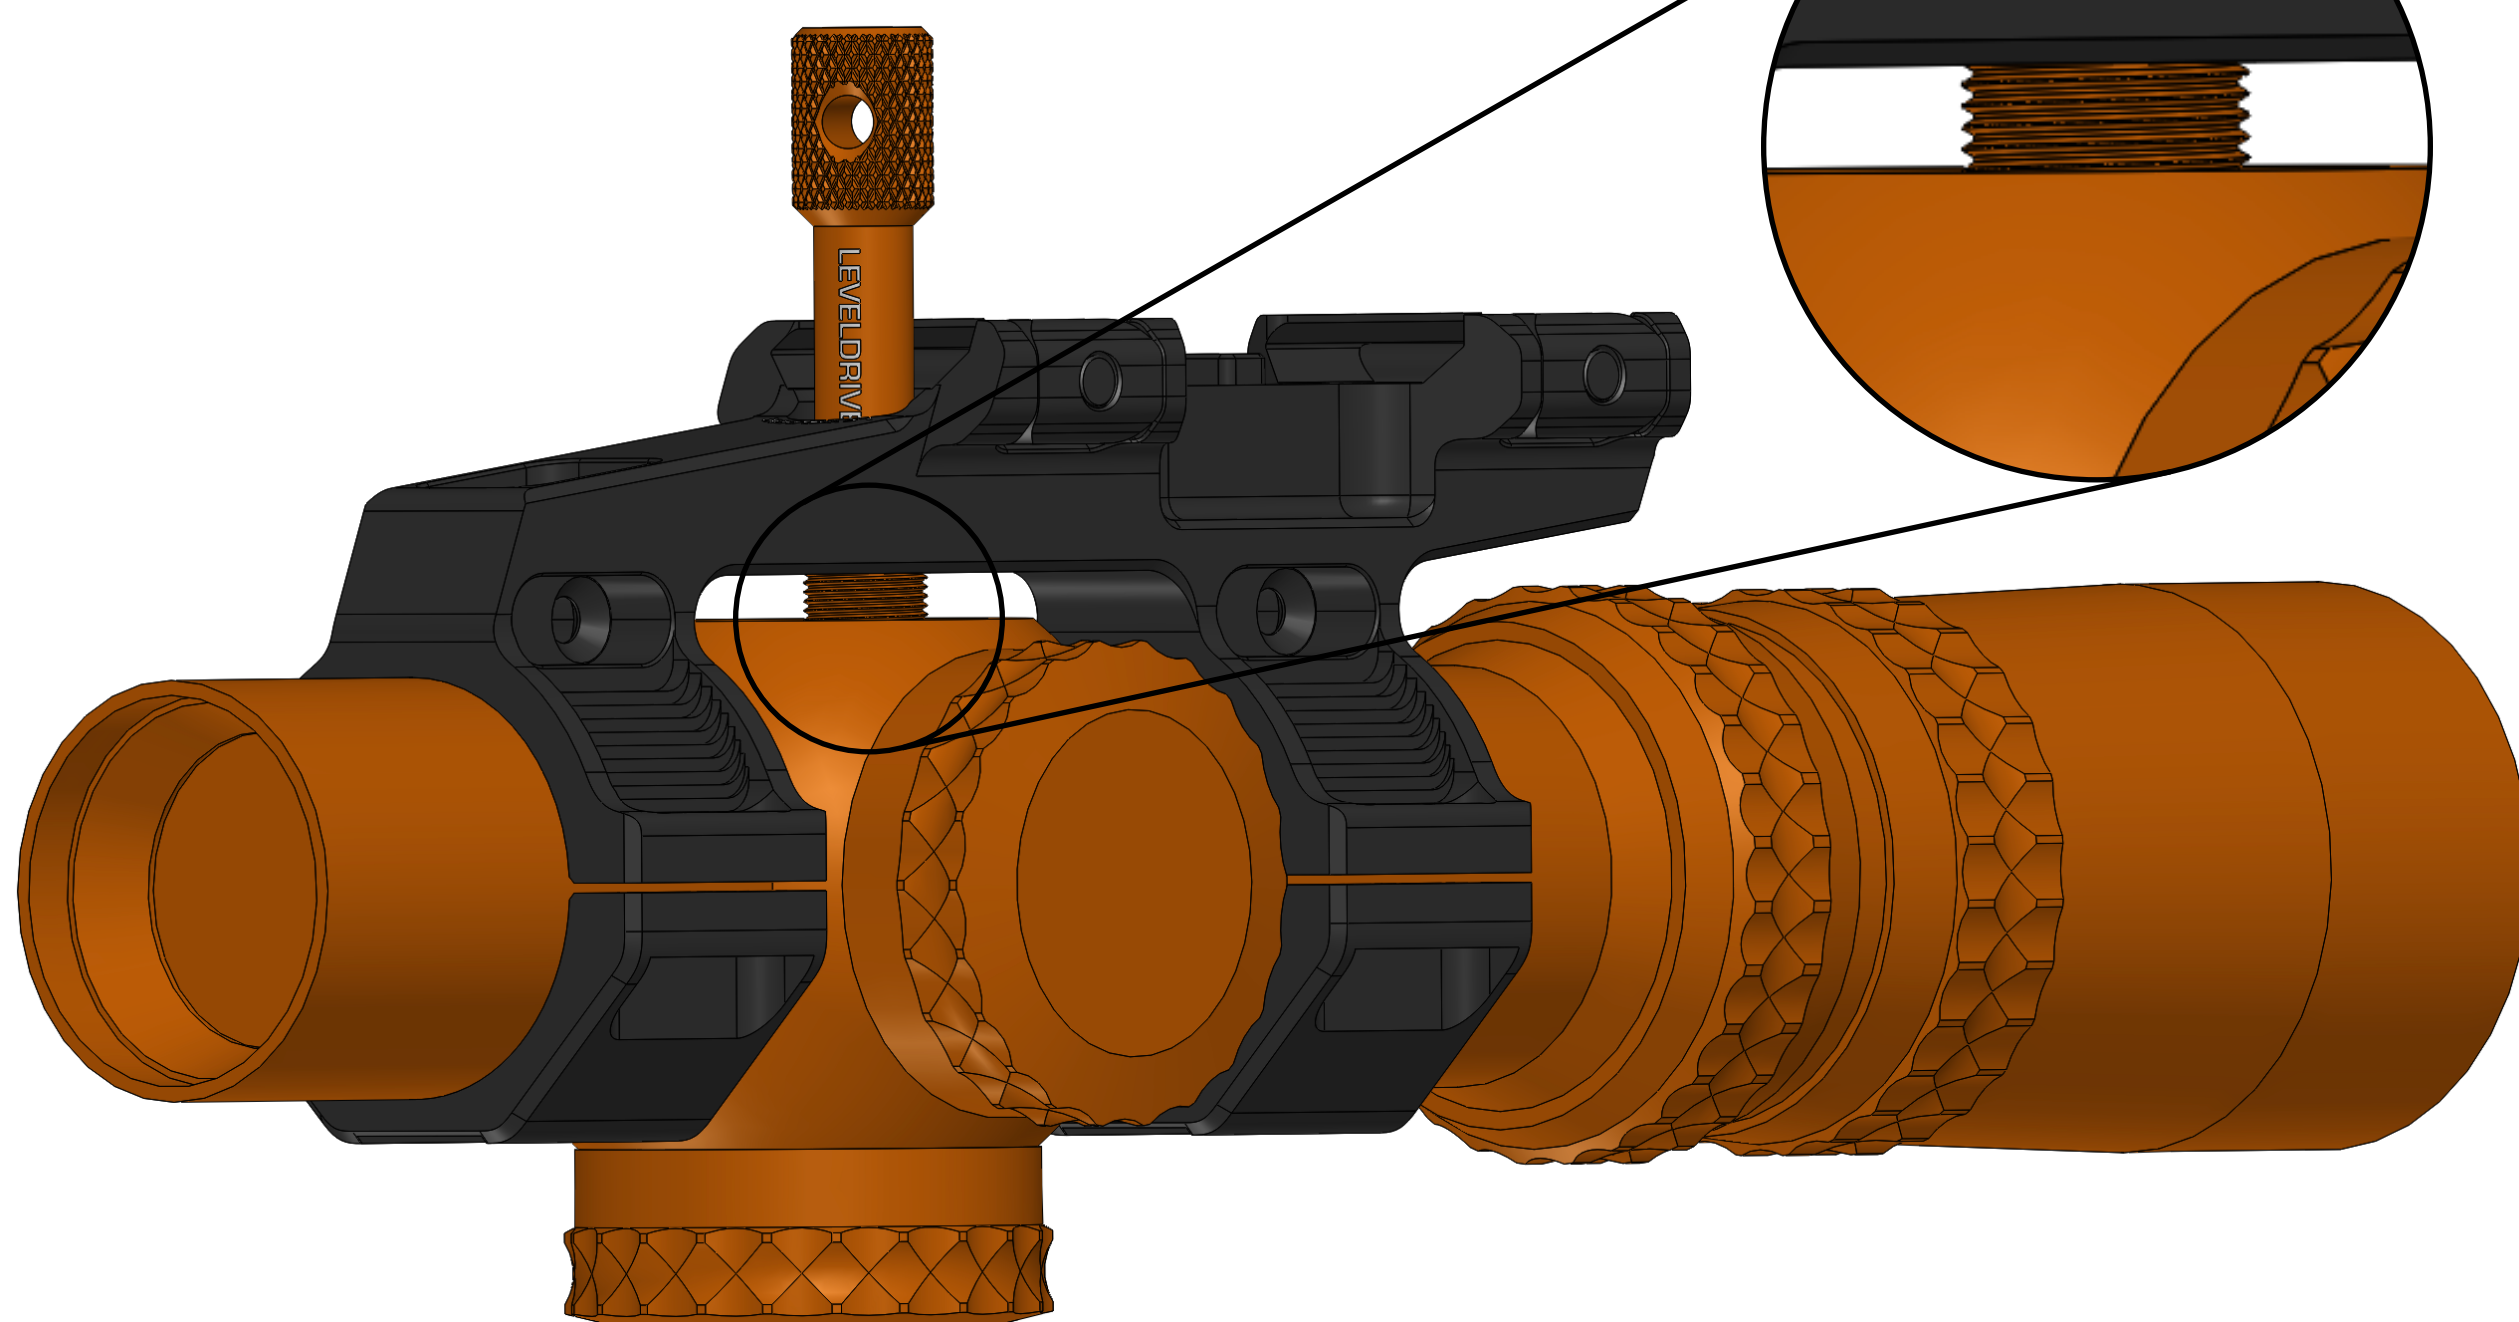

01. Fasten screws **only** on the “NO GAP” side so that the scope can be rotated in the rings.

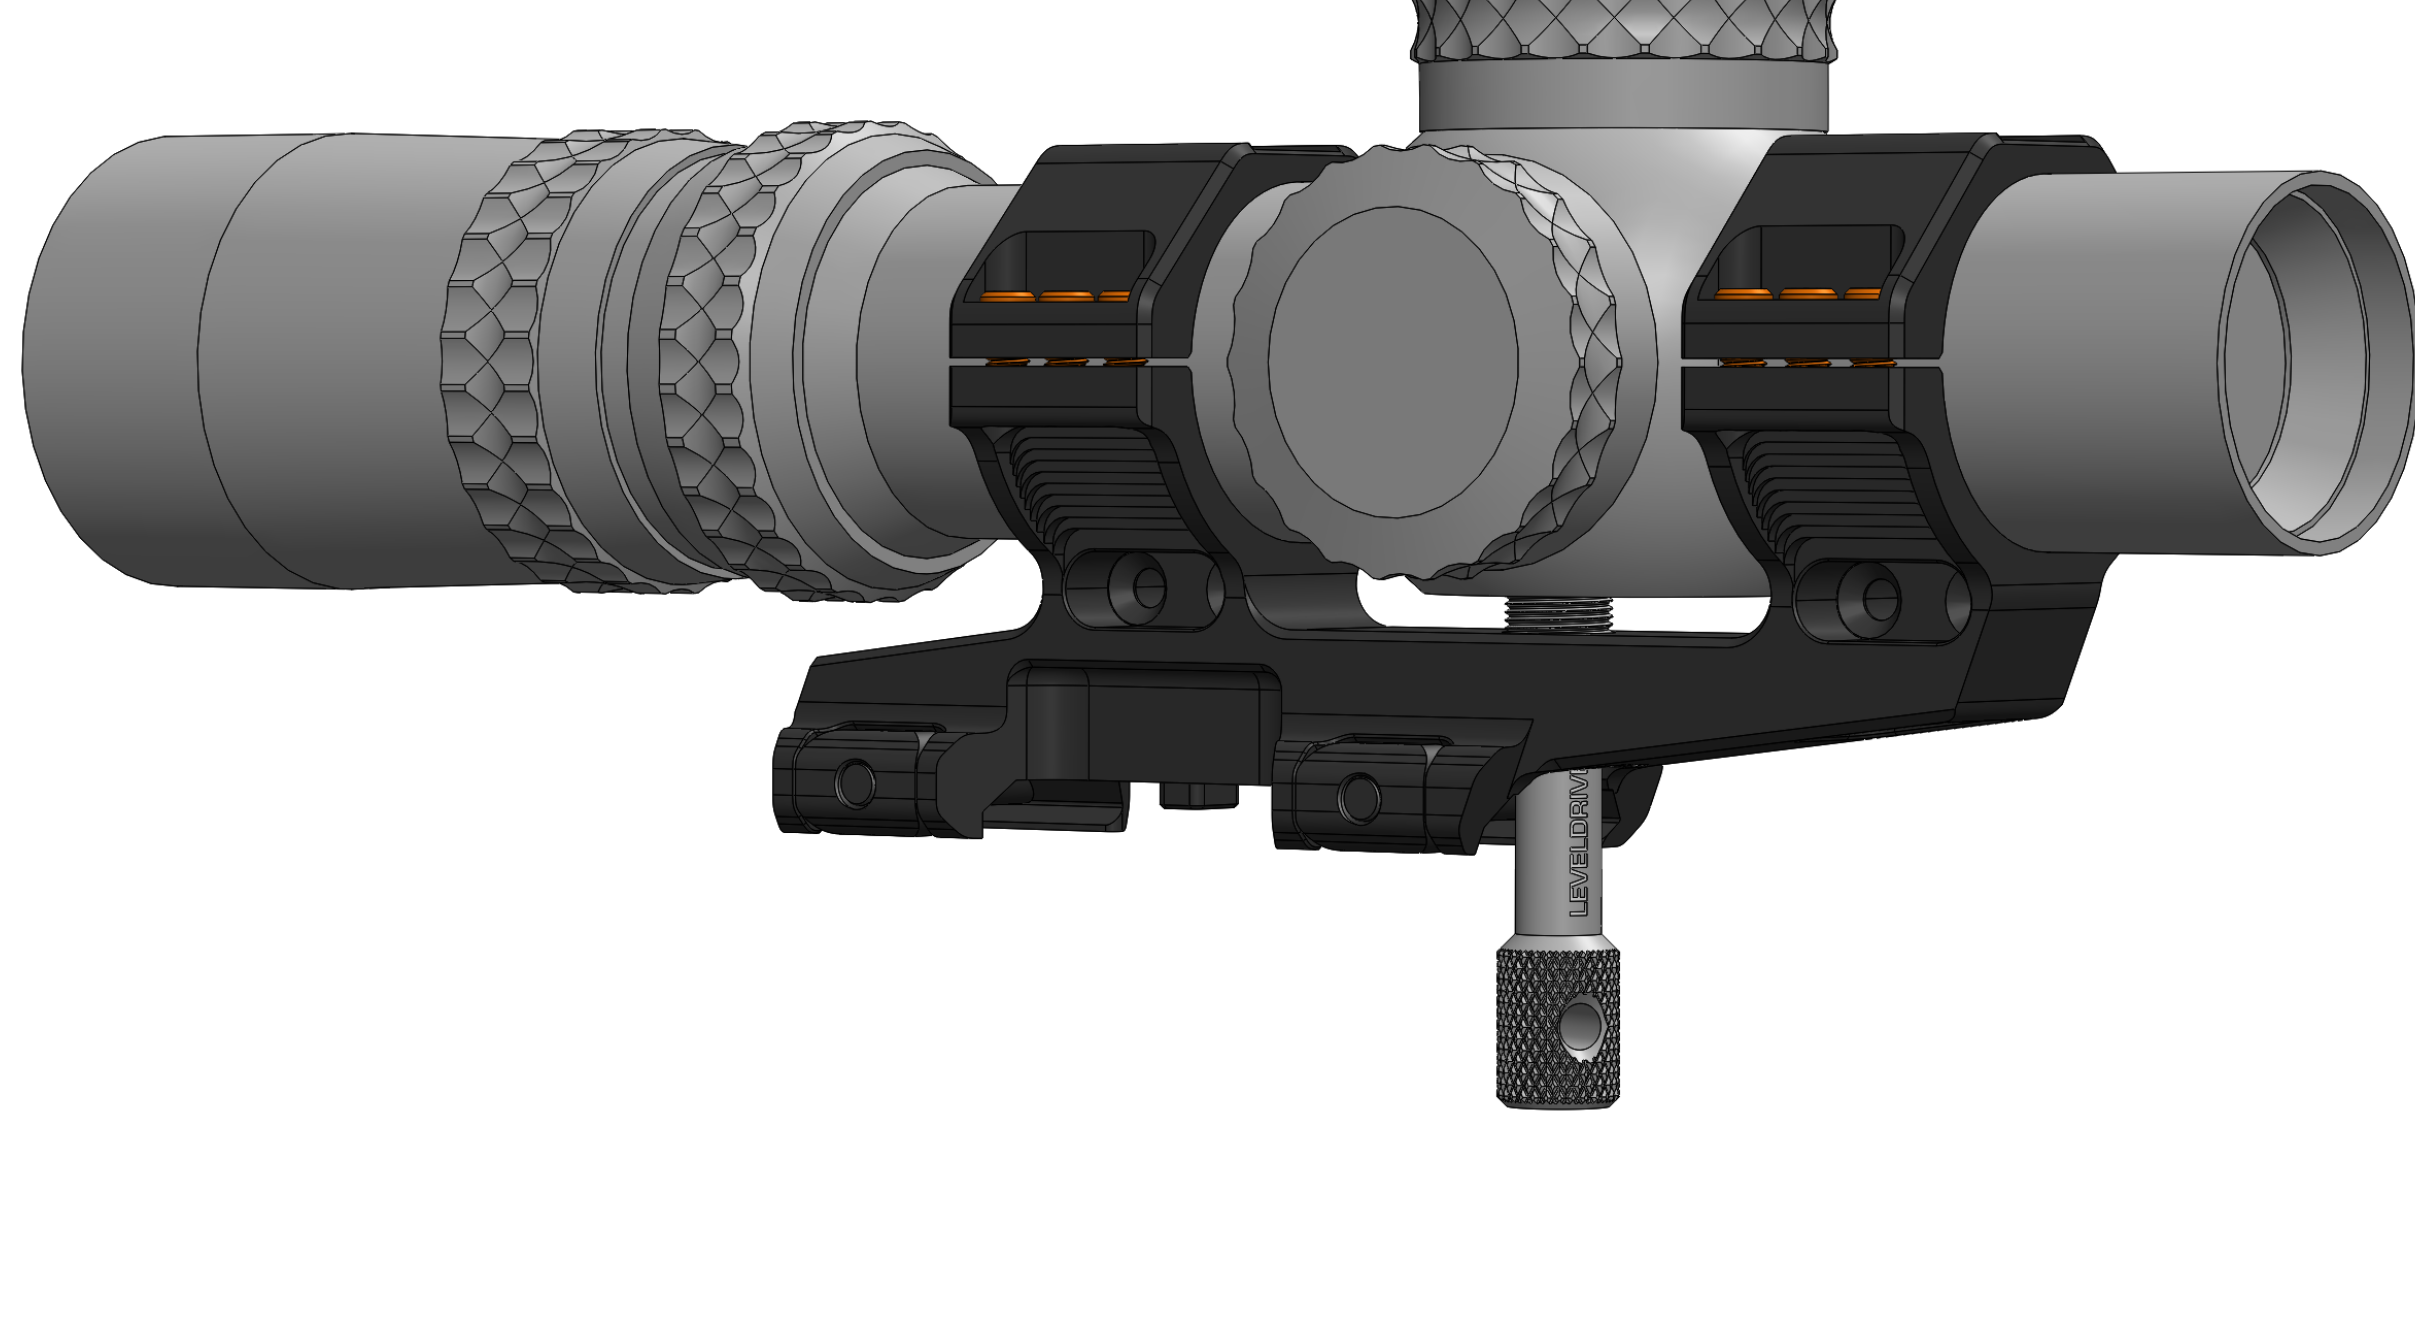

02. Tighten each screw in the pattern shown, as many times as needed until torque stabilizes at 20inch-lbs.

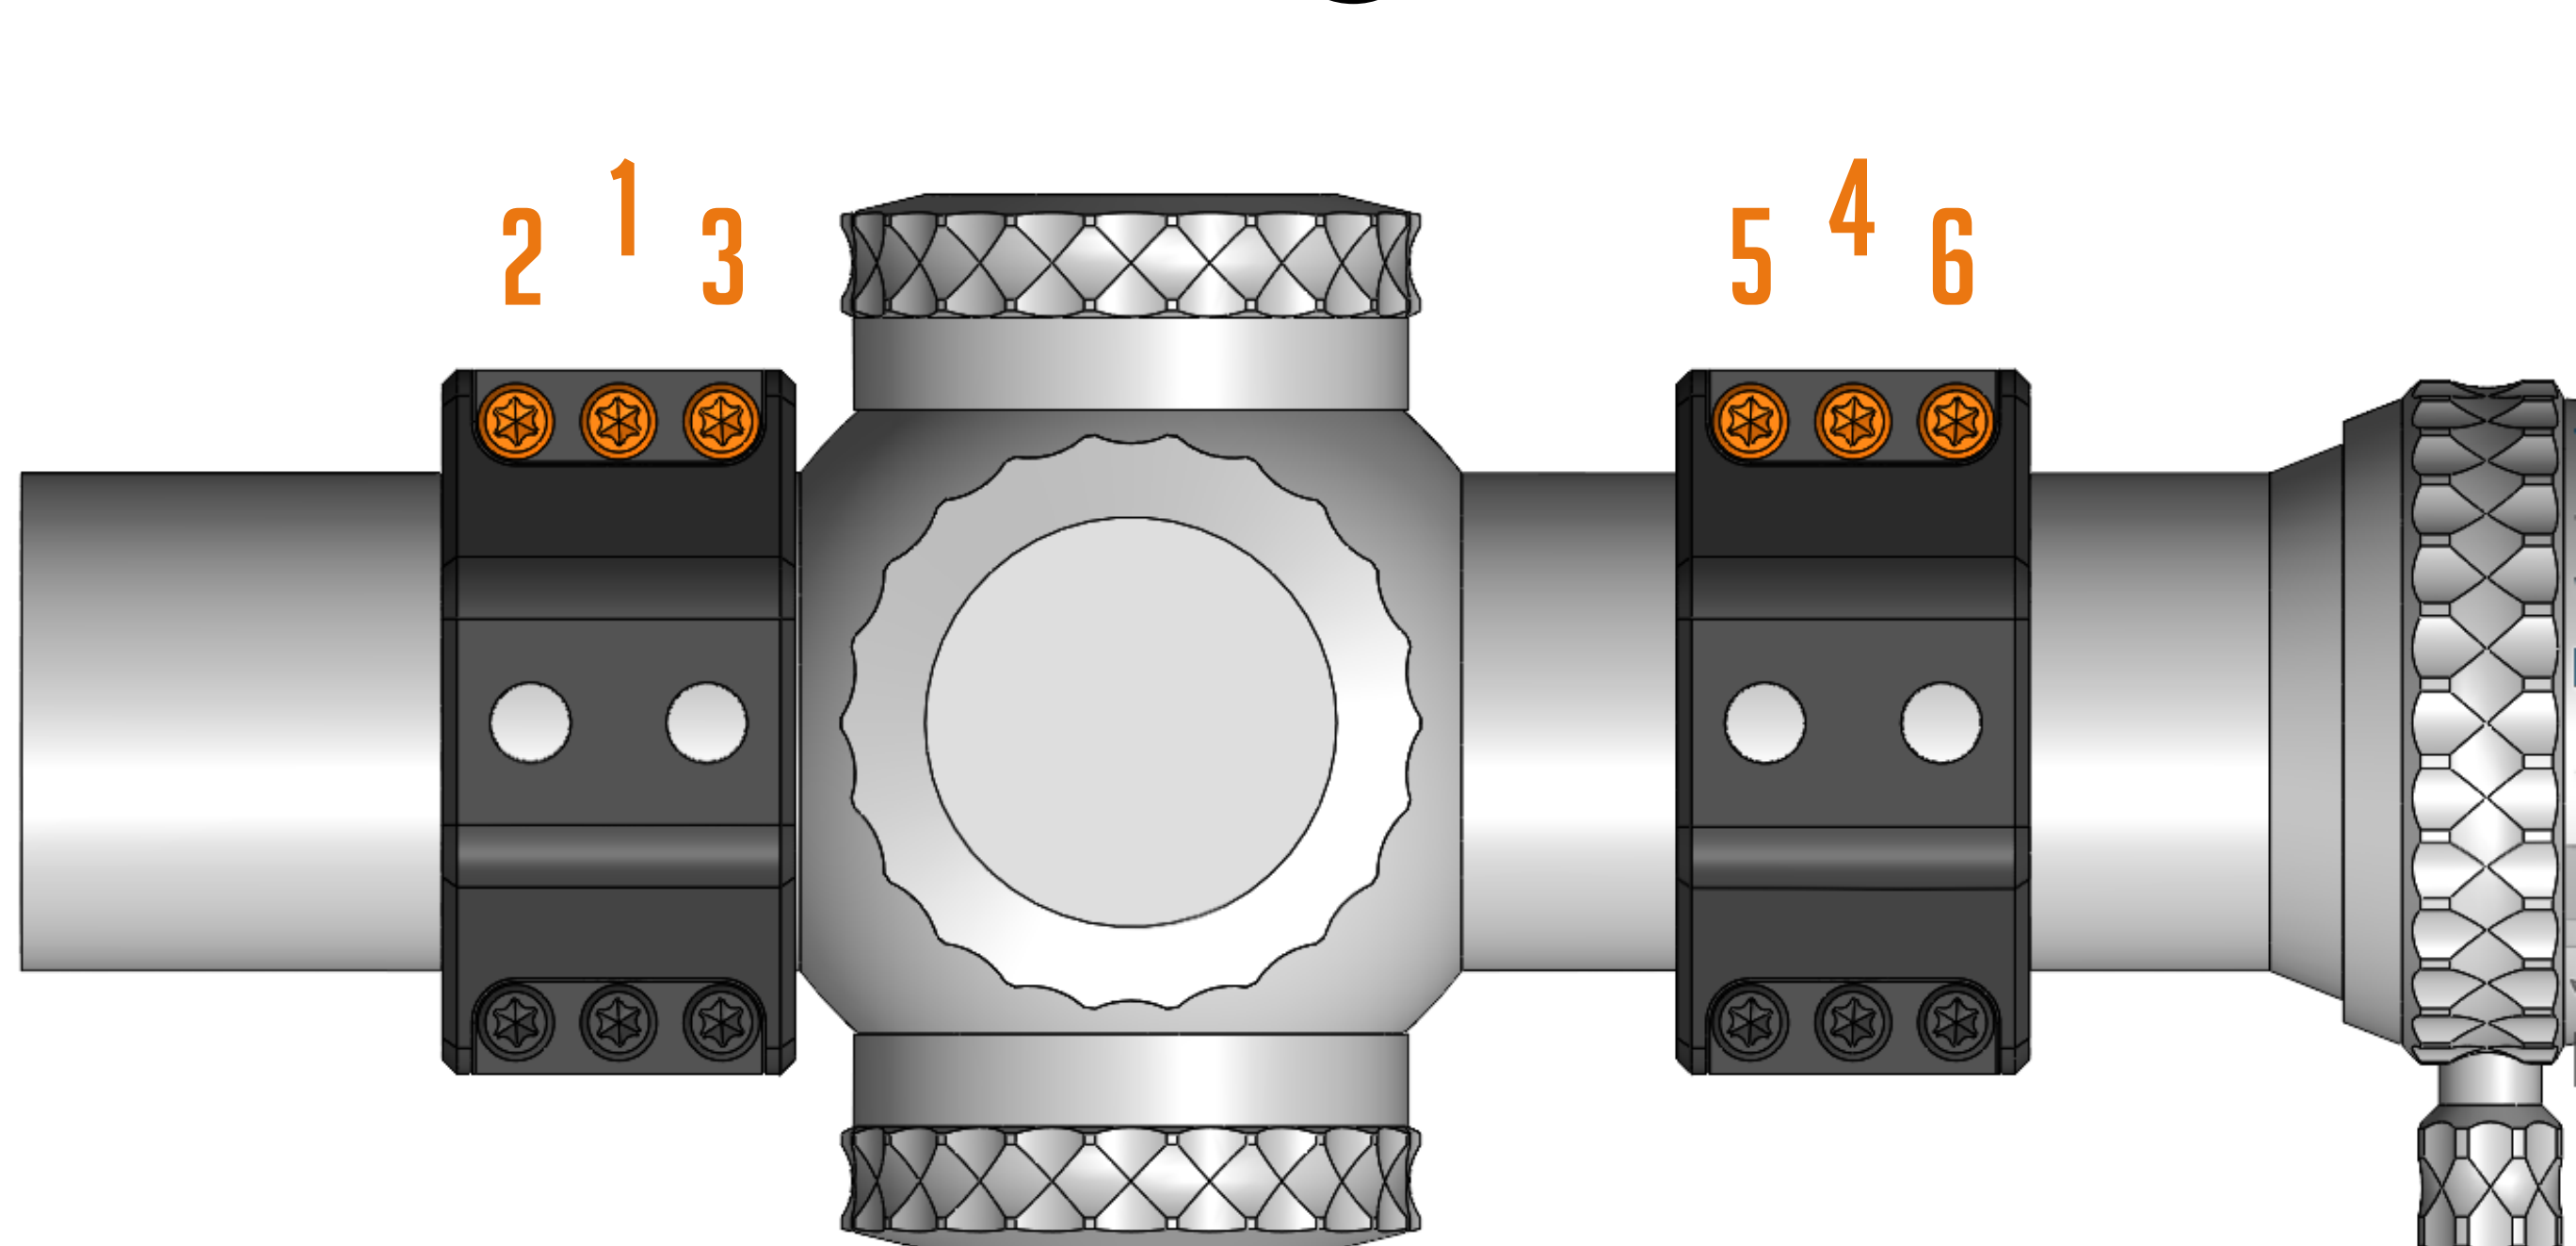

03. Rotate scope while turning in LevelDrive. Repeat until no gap is visible between LevelDrive & Scope.

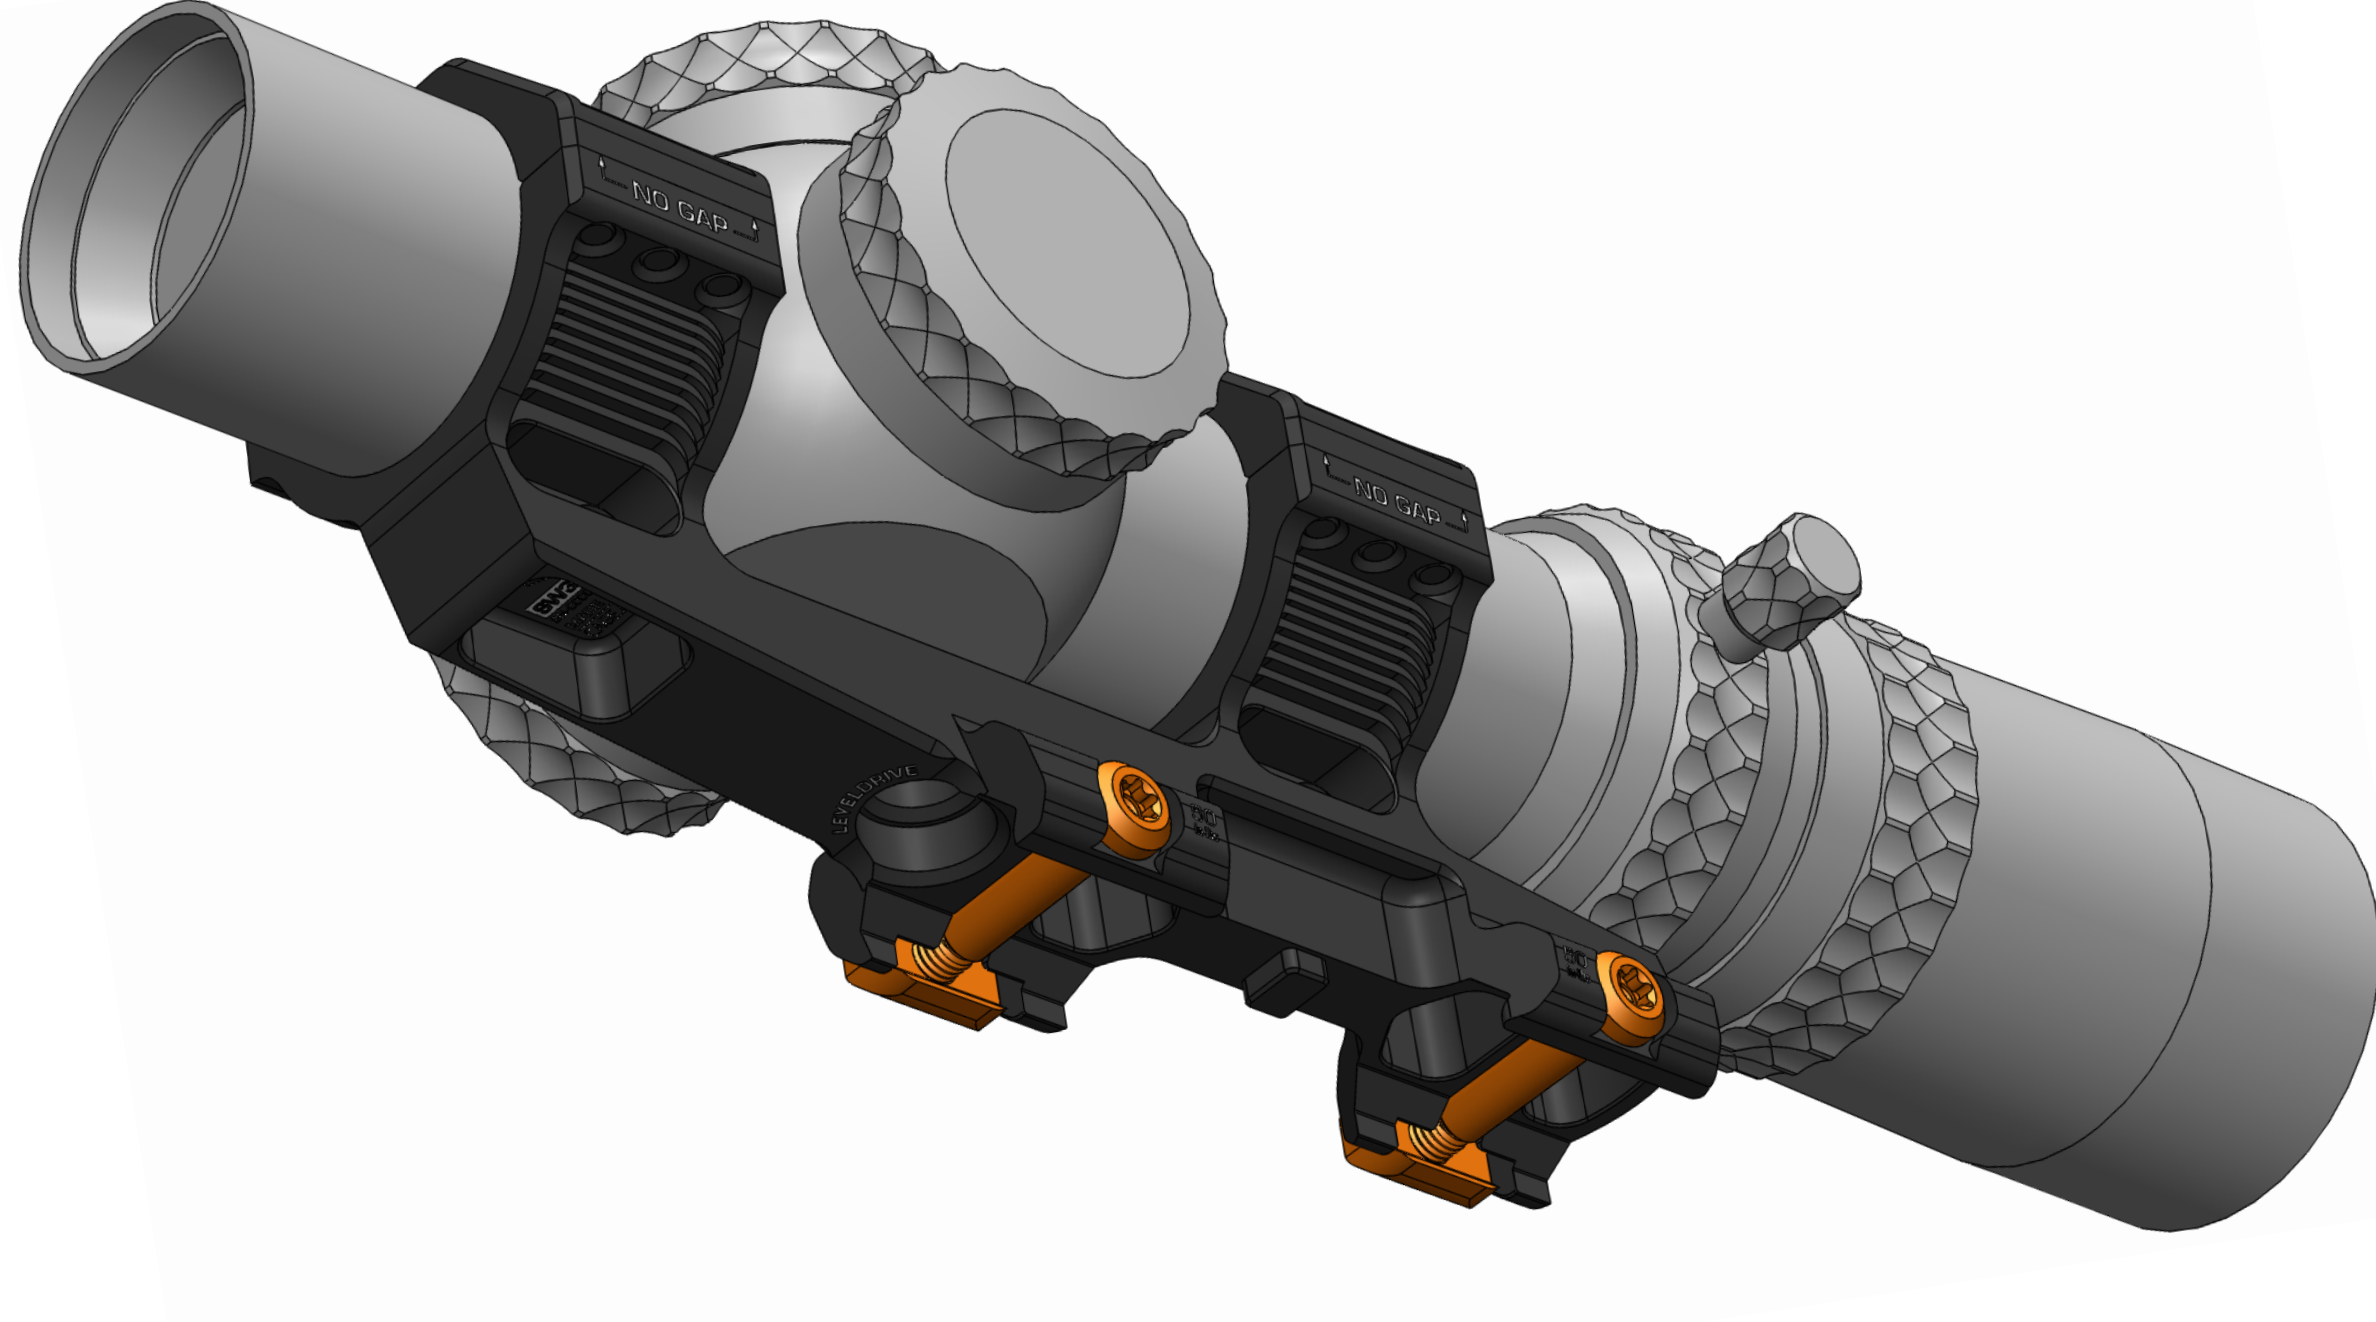

04. Leave LevelDrive tool snug against the flat base of the scope and insert screws on gap side of rings.

05. Tighten each screw in the pattern shown, as many times as needed until torque stabilizes at 20inch-lbs.

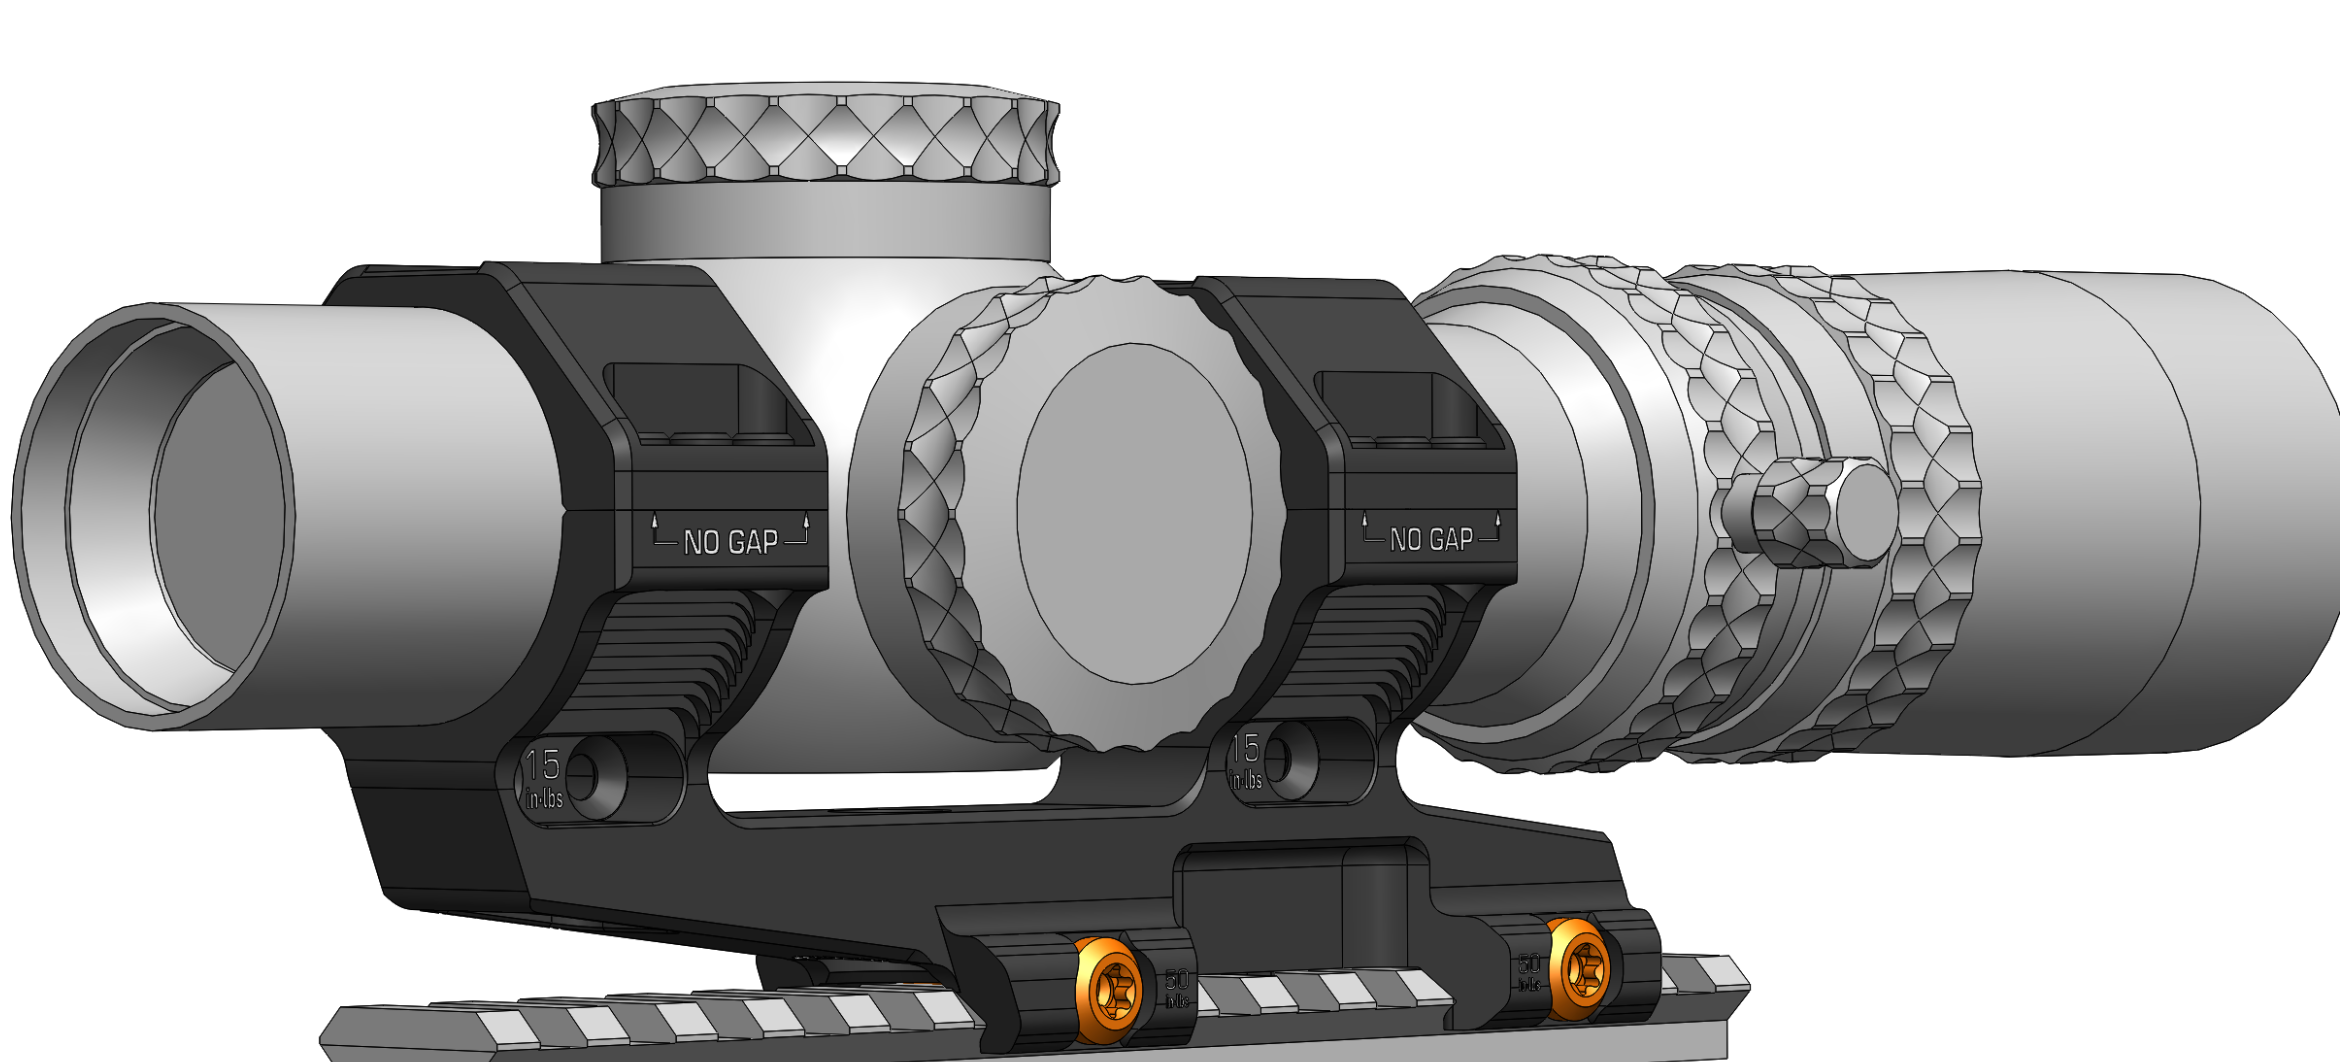

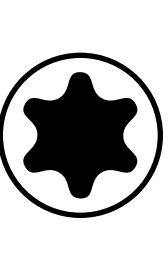

06. Remove LevelDrive tool from base and loosen clamps enough to hook mount onto rail.

UNLOAD & MAKE WEAPON SAFE

07. Hook mount onto rail and push forward to seat against rail slot. Tighten cross-bolts to 50inch-lbs.
